Welcome Address by President of Malaysian Orthopaedic Association

Esteemed colleagues, distinguished guests, and all fellow orthopaedic enthusiasts!

On behalf of the Malaysian Orthopaedic Association, it is with immense pleasure that I welcome each and every one of you to the **53rd Malaysian Orthopaedic Association Annual Scientific Meeting 2024**! It's truly inspiring to see so many brilliant minds from across the spectrum of orthopaedics gathered here in the beautiful city of Kuantan.

This annual event signifies a critical milestone on our calendar. It's a time for orthopaedic surgeons, master trainees, medical officers, house officers, nurses and allied health professionals from all subspecialties to come together and reunite for a common purpose. Here, we share our knowledge, experience, and insights in a collaborative spirit that fuels advancements in our field and ultimately leads to improved patient care.

We've meticulously curated a comprehensive program designed to be an invaluable resource for everyone. In line with the theme of this year's conference **"Leading Malaysian Orthopaedics Into the Future"** we have thought-provoking lectures to interactive workshops, lively discussions to invaluable networking opportunities, we are confident this meeting will serve as a catalyst for professional growth and enrichment.

At this juncture, I'd like to express our deepest gratitude to two exceptional individuals who have been instrumental in organizing this esteemed event: Dr. Gandhi Nathan Solayar, our dedicated Organising Chairman, and Assoc Prof Dr. Ahmad Fadzli Sulong, our brilliant Scientific Chairman. Their tireless efforts together with the Scientific Committee have resulted in a program designed to reignite our passion for orthopaedic excellence.

The Malaysian Orthopaedic Association stands beside you, ready to support and guide you on your professional journey. Once again, a very warm welcome to all. I have the utmost confidence that this gathering will be a source of inspiration, learning, and camaraderie.

Thank you, and I eagerly look forward to a stimulating and successful meeting!

Prof Dr Tengku Muzaffar Tengku Mohamed Shihabudin

President

Malaysian Orthopaedic Association 2023-2024

Welcome Message from 53rd MOA ASM 2024 Organising Chairman

Distinguished guests, esteemed colleagues, and all future leaders of Malaysian orthopaedics.

On behalf of the entire organizing committee, I extend a heartfelt welcome to the **53rd Malaysian Orthopaedic Association Annual Scientific Meeting 2024** here in beautiful Kuantan, Pahang! This year's theme, **"Leading Malaysian Orthopaedics into the Future"** perfectly captures the spirit of the MOA ASM. We've meticulously curated a program designed to not only inform you about the latest advancements in orthopaedic surgery, but also to inspire and equip you to become the future torchbearers of this incredible field.

The scientific committee has tirelessly crafted an enriching program filled with dynamic lectures, interactive quizzes, and thought-provoking presentations. Prepare to delve deep into cutting-edge clinical practices, stay abreast of emerging trends, and broaden your knowledge across all aspects of orthopaedic care.

Beyond the scientific sessions, the 53rd MOA ASM 2024 promises to be a platform for collaboration and professional growth. Network with fellow practitioners from across the nation, exchange ideas, and forge connections that will strengthen the future of Malaysian orthopaedics.

We are especially honoured to present the prestigious Mahmood Merican Best Masters Research Award, the Best Basic Science Poster Award, the P. Balasubramaniam Best Published Translational Medicine (Non-Clinical) Paper Award, and the Subir Sengupta Best Published Clinical Paper Award. These awards celebrate excellence in research and innovation in our field, and I encourage you to join us in this display of scientific progress.

Furthermore, don't miss the highly anticipated Subir Sengupta Memorial Lecture titled "Work Life Balance As An Orthopaedic Surgeon." This promises to be a valuable session, addressing a topic crucial for the well-being of all us.

The program extends beyond clinical expertise. We will host sessions on diverse topics like Orthopaedic Sub-Speciality NSR Forum, Advanced Orthopaedic Surgical Training, dive into the complexities of Entrepreneurship, navigate the legal landscape with the Medicolegal & Ethics Session, and the Fees Schedule. A special welcome goes out to our dedicated allied health professionals, particularly our nurses and paramedics. Your contributions are invaluable, and we applaud your commitment to patient care.

We would also like to express our deepest gratitude to our esteemed sponsors. Their unwavering support is instrumental in making the 53rd MOA ASM 2024 a reality. To round out the experience, we invite you to participate in engaging social activities. Enjoy the scenic Fellowship Ride through Kuantan on the pre-conference day, and kick-start your Sunday with the Bone & Joint Charity Fun Run.

Whether you're a seasoned professional or an aspiring future leader, 53rd MOA ASM 2024 has something for everyone. We are confident that this meeting will be an unforgettable journey of learning, collaboration, and growth. I look forward to welcoming you all and sharing an exceptional experience at MOASM 2024!

Work Life Balance As An Orthopaedic Surgeon

PROF DATO' DR AHMAD HAFIZ ZULKIFLY

Campus Director, IIUM Kuantan

Summary

Being an orthopaedic surgeon comes with several challenges that can impact various aspects of life. Demanding work schedules, clinical responsibilities, patient care challenges, balancing between as academican, clinical practice, research, and administration works leads to high stress levels and burnout among orthopaedic surgeons. Addressing these challenges requires proactive strategies to prioritize self-care, manage workload efficiently, and cultivate supportive relationships within and outside the profession. Application of work life balance, prioritized task effectively, setting daily limits, good leadership wellness and good self-care practice are some of the strategies that can be implemented towards well-life balance. Besides, support from work-family enrichment, hospitals, healthcare centers and organizations may be able to create a more supportive work environment for orthopaedic surgeons, which could lead to higher levels of job satisfaction. It is essential for orthopaedic surgeons to recognize the importance of work-life balance and implement strategies to mitigate stress and maintain overall well-being while delivering high-quality patient care. As conclusion, work-life balance is essential for well-being implement strategies to achieve balance enhance leadership skills through wellness.

**Empowering Orthopedic Surgeons:
A Comprehensive 3D Printing Workshop**

Step into the Future: From Scan to Precision Planning

Join us for an immersive workshop designed to equip orthopedic surgeons with the cutting-edge skills needed to harness the potential of 3D printing in surgical practice. In this hands-on session, participants will gain invaluable experience in transforming CT scan images into intricate 3D models using intuitive segmentation software, all set for seamless printing on advanced 3D printers.

Guided by experts in the field, attendees will witness a live demonstration focused on reconstructing an acetabular fracture, offering a tangible example of the transformative capabilities of 3D printing in orthopedic surgery.

Ample access to state-of-the-art 3D printers will be provided, allowing participants to personally oversee the printing process of their generated files. These printed models will serve as indispensable tools for meticulous surgical planning, elevating precision and confidence in patient care.

Don't miss this opportunity to revolutionize your surgical approach and explore the endless possibilities of 3D printing technology in orthopedic practice.

Learning Objectives:

- 1. Learn how to use special software to turn CT scan images into 3D models.**
- 2. Get hands-on experience with 3D printing technology.**
- 3. Understand how to create files that can be printed in 3D for surgical planning.**
- 4. See how 3D printing can be used in orthopedic surgery, using an example like fixing a broken hip.**
- 5. Learn how to operate 3D printers to make models for surgery planning.**
- 6. Improve surgical accuracy and confidence by using printed models to plan surgeries.**
- 7. Discover the exciting ways 3D printing can improve patient care and surgery outcomes in orthopedics.**

Workshop content

1. Introduction to 3D printing
2. Demo of image segmentation to printing
3. Hands-on

This workshop will be conducted by the 3D printing in medicine@USM Team.

AP Dr Nor Azman MZ, Dr Hadizie Din and Dr Sahran Yahaya
will facilitate in the workshop.

SEMINAR SPEAKER

Dr. Yu-Pin Chen

陳昱斌 醫師

Osteoporosis Specialist

Dr. Yu-Pin Chen is an esteemed orthopedic surgeon and a leading authority in the fields of orthopedic trauma, hand and wrist surgery, and osteoporosis.

Holding a Ph.D. from National Yang-Ming University, Taiwan, Dr. Chen has contributed significantly to medical research with over 50 publications in prestigious journals, focusing on osteoporosis, fractures, and sarcopenia.

He currently serves as the Director of the Care Center for Osteoporosis and Sarcopenia at Wan Fang Hospital, Taipei.

An Expedition into the Depths of Osteoporosis

His extensive research has led to innovative approaches in the prevention and treatment of osteoporosis and improved postoperative outcomes in elderly patients with fractures.

Dr. Chen's dedication to advancing orthopedic health and his profound impact on patient care make his upcoming lecture an invaluable opportunity for learning and engagement.
